THE DAWN OF A NEW BEGINNING:
RECENT DEVELOPMENTS IN INDIAN ARBITRATION

ABOUT THE CONFERENCE

Arbitration has become the most accepted, internationally recognised dispute resolution mechanism with regard to resolution of commercial disputes in the last 50 years. International arbitration is a leading method for resolving disputes arising from international commercial agreements and other international relationships. International arbitrations are increasing day by day due to increasing international contracts and multi-jurisdiction transactions.

Our second annual conference organised in Mumbai to promote India as a global hub for arbitration amongst international practitioners, corporate houses and the Indian legal fraternity is a step towards strengthening our national initiative towards arbitration and enforcement in India.

This conference with the active support from international arbitration institutions (HKIAC, ICC, KLRCA, and MCIA) will serve as a platform for discussing critical issues, sharing experience on best international practices and understand the road map to strengthen arbitration and its enforcement in the country.
